Lot # 1 Pine-Tree Shottle Minty-ET

Shottle Minty is the just about the closest thing to 7H9879 Spearmint as you can get, and a flashy individual herself. This 9/09 Shottle daughter boosts a PTPI of +2129, with +4.6PL & +2.73 PTAT. Shottle Minty comes from a beautiful Zenith maternal sister to Spearmint, Pine-Tree Zenith Minto, VG-86, VG-MS in her first lactation. Minto is a strong Zenith daughter with a great udder and promising future. She is bred back to calve in 5/10 for her 2nd lactation, and should be exciting to watch develop. She is genomic tested at +1891 GTPI. Next Dam is Pine-Tree Outside Mint, VG-87, VG-MS, DOM, the mother of Spearmint 7H9879, and also the mother of Pine-Tree Mint Sharla, ranking +2450 GTPI, 2nd highest in the country. So Shottle Minty is a Shottle x Zenith Minto x Outside Mint, and Spearmint 7H9879 is a Shottle x Outside Mint.

Shottle Minty is a sharp, speckled heifer, with a pedigree to run with. Should be a foundation heifer for someone.

Lot # 3 Pine-Tree Pontiac Mint-ET

Pontiac Mint is a 1st lactation cow with a tremendous udder, and is a maternal sister to Spearmint 7H9879 himself. Pontiac x Outside Mint VG-87 x Rudolph Missy EX-92. Pontiac Mint is due to Time 7H10052 6/5/10, and should move up from her GP+81 score rapidly. Pontiac Mint represents a great way to get into the Spearmint branch of the Missy family.

Lot # 6 Pine-Tree Spearmint Mimi-ET

This is an August 2009 Spearmint heifer with contract numbers. Her two full brothers are G-tested and heading to Select; @ +2069 & +2147. Spearmint Mimi has not been genomic tested, and she has one full sister, who also hasn't been genomic tested.

Her Dam is Pine-Tree Finley Mimi, EX-90 3rd lactation Finley daughter of Wesswood-HC Rudy Missy, EX-92. Finley Mimi is a long, wide, white cow with a youthful udder, and two lactation over 36,000 and 1,400 lbs. of Fat. She has a Shottle daughter who is contracted, and a Ramos granddaughter also contracted. Spearmint Mimi comes in at +2092 PTPI, with +4.1 PL & +2.91 PTAT. That is a striking combination of health traits and type. Spearmint Mimi's sire stack is as follows: Spearmint (Shottle x Outside Mint x Rudolph Missy) x Finley Missy x Rudolph Missy. Line-bred for success!

Lot # 8 Pine-Tree Plnet Supercow-ET

A genomic-tested heifer, Planet Supercow is a 10/08 Planet daughter x Oman Superstar VG-85 x VG Durham Sweet x EX Prelude Sweet, a well-known Ohio cow family. Planet Supercow genomic tested well above parent average, and comes in at +2181 GTPI, with +2048 PTAM and +63 Pro and +5.1 PL. In her young career,

Supercow has already been flushed to fill embryo orders by exporters (8 embryos), and sells open and ready for someone to develop. High genomics, already well-known by embryo exporters, and a great (Select) pedigree: Planet x Oman x Durham.

Lot # 10 Pine-Tree Spearmint Brina-ET

This 3/09 Spearmint is one of the oldest Spearmints in the country, especially with this caliber of pedigree: Spearmint x Formation Bret x Lynch x Stardom. Some of the most consistent health trait sires. Spearmint Brina is a March 2009 heifer, selling ready to flush. She was genomic tested in February and comes in above parent average @ GTPI 2064, GNM\$ 531, P.L +5.1, DPR +1.7, and PTAT +2.35. Note especially her Calving ease of 7%, genomically. There are three Spearmint heifers out of Bret 1401 - this Brina heifer is the highest genomic testing one. Spearmint Brina has a full brother tested Genomically with a GTPI of +2134, and maternal brothers by Burt & Planet that tested well over parent average and are headed to studs. Spearmint Brina's Dam is the beautiful Bret 1401 (*TV), VG-87, EX-MS Formation Bret now in her 3rd lactation; with multiple sons in A.I. and a great photo. Her 2nd lactation record came in at 3-2 365 37,253 4.0F 1491 3.2Pro 1166lbs. Last test she had 119 lbs.

Bret 1401's Dam, Lynch 361 put in 6 lactation, and scored VG-86, VG-MS, and the next Dam was Stardom 873, VG-85, who also had 6 lactations, calving in quite regularly. So, Spearmint Brina has a pedigree for longevity, and genomic appeal through her sire that is ahead of the crowd, being one of the earliest Spearmint daughters.

Lot # 11 Pine-Tree Durham Missy-ET

Durham Missy may be one of the last Durhams to sell in Ohio sales, but not the least. A Durham twist into the Rudolph Missy family, Durham Missy is from Outside Mollie EX-90 x Rudolph Missy EX-92 x Elton Mimi Ex-90, making her a potential 4th generation Excellent. And she is considered a potential Excellent. She is fresh 9/09 into her 2nd lactation, bred 2/9/10 to Super, already GP+ 84, VG-MS (1st lactation score) and just waiting to see a classifier this lactation.

Lot # 12 Super Embryos x Pine-Tree Outside Mollie-ET, EX-90

10 Super embryos sell from Outside Mollie, EX-90 EX-MS; the "white Outside" as she is often referred to as. Notice her great 2nd lactation photo, showing off her extreme strength and youthful udder depth & veining. Charlesdale Superstition (Super) struck us as an ideal mating on Outside Mollie, with her strength, style, and great feet & udder. Outside Mollie is a full sister to Outside Mint, VG-87, the Dam of 7H9879 Spearmint. Mollie has sons in A.I., and embryos exported. Mollie has a Boliver daughter that Genomic tested well and is owned by Sandy-Valley, WI; which was one inspiration for us to use the Boliver son Super on Mollie.

Lot # 13 Pine-Tree Wanda Dellia-ET, VG-85 (Back to the Missy family)

Wanda Dellia is not pictured, but hardly needs a picture. She has that beautiful rear udder and teat placement that you could expect from a Duplex from the Missy family. Dellia is the right size for any operation, with great feet & a well-attached udder. She scored VG-MS & FL on her first score. She is due to Casino 3/3/10, so she'll probably sell just fresh. Dellia made a strong first lactation, with 1-11 365 35,577M. She bred back on her first service, and the calf may sell with her.

Now her Dam is the increasingly respected Pine-Tree Missy Wanda, VG-86. Wanda is a 2nd lactation Wizard daughter of Rudolph Missy, EX-92. Wanda has numerous sons in A.I. that have g-tested well. A quick search reveals nine sons already at studs that average GNMS\$ +542.. Wanda herself is g-tested at +2031 GTPI. She has a commercial-size body with a great udder & feet & legs; the ideal long-lasting type.

Lot # 14 Pine-Tree Oman Alexy-ET

Full sister to 1H8777 Awesome @ Genex, with +2016 GTPI and +.27% Fat. She writes an extreme health trait and longevity pedigree. Oman Alixa is an Oman from the EX-91, 2E Whitman Zade Alix @ Pine-Tree. Zade Alix is a first-crop Zade daughter, just finishing her 6th lactation with credits of 7-7 365 38,808 4.0F 1579 3.2P 1208. Zade Alix has a number of sons in A.I.. Her shallow, well-attached udder holds about exactly the same lactation after lactation, and she is scored EX-96 in F&L. Oman Alexy comes in at +1935 PTPI with +4.6 PL. Due September 15, 2010, Alexy is confirmed pregnant to Planet-H.

Lot # 66 Pine-Tree Boliver Mara-ET

This 3rd lactation VG-89 Boliver daughter sells shortbred, milking over 120 lbs.. Boliver Mara has an Oman son @ ABS, and a fancy Oman daughter fresh at Pine-Tree. She has quite the frame, and could be a cow to have some fun with in the show ring. All that said, Boliver Mara has a great pedigree and works hard herself. She currently has credits of 4-7 165 days 20,436 3.3F 676 3.2P 659 inc. with her last test at 120 lbs. Boliver Mara comes from a VG-85 Machoman from the VG-88 Morhfield Sand Mollie, followed by VG-88 Singbrook Areo M Molly back to the Wappa Bootmaker Mandy, EX-96 cow family. Boliver Mara is tall, walks up-hill, and has an extremely shallow, tight udder.

Lot # 67 Pine-Tree Active Willow-ET

Here is another exciting 10/09 heifer with an outcross sire stack and solid pedigree. Her pedigree lines up like this: Active Willow x Laudan Willow VG-86 x Outside Wish EX-95 3E x Formation Wok EX-94 x EX-94 Bench Winny x EX-90 Cleitus.

Active Willow's Dam is Juniper Laudan Willow, VG-86 in her 2nd lactation. Laudan Willow is heavily contracted w/CTPI of +2011 and +6.6 PL. She is a 2nd lactation cow with a soft, high udder and great feet & legs. Her full brother is 29H13222 Winston @ +1893 GTPI. Laudan Willow is a beautiful white cow that strikes you as the ideal long-lasting cow.
